

Reflection and evaluation

To summarise and reflect on the learning thus far:

- 1) Ask students to make a summary of consumer rights and responsibilities that apply to this situation by completing these statements:

- 2) Ask students to complete a collect, sort and question chart.
 - a) Ask students to list all the words they can think of relating to consumer rights and responsibilities.
 - b) Ask students to find two words that go together and describe what the two words are about. This will supply a label to the words.
 - c) Record all words that fit under that label together.
 - d) Ask students to design questions based on the labels, groups and interest areas to them.
 - e) Ask students where they might go to find answers for their questions.

An example for a collect, sort and question chart is provided as a separate page in **Reflection and Evaluation**.
